Botswana Traditional Values in a Modern Learning Environment.

LKC programmes prepare students well for college

Livingstone Kolobeng college students have once again proved their outstanding academic stamina through exceptional 2022 A Level University of Cambridge Assessment International Education results for the June session. In addition to a 100% pass rate, 50% of all grades in all subjects received either "A*" or "A" marks. Subjects covered in the June exams at LKC included Accounting, Biology, Business Studies, Chemistry, Economics, English Language, Geography, Mathematics, Further Mathematics and Physics. Further Mathematics students notably achieved 100% "A*" or "A" marks in this context. Indeed, LKC programmes prepare students well for college.

These results are a clear testament of the success culture inculcated into Livingstone Kolobeng College students from the word go. Since too much work and no play makes Jill a dull boy, LKC hosted a family fun on the 24th September 2022 to allow students share a moment of enjoyment with friends and family at the same time fundraising for charity to fulfill their social responsibility.

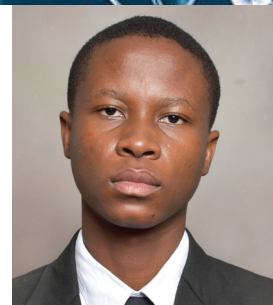

The LKC Board commends the staff and students for this latest commendable performance, while further appreciating the support of parents, guardians and other members of the LKC family. 2023 form one places are still available and admissions are ongoing. Join LKC today and soar with pride.
